Auckland, New Zealand

It is the only member of the 'Banking Group' in New Zealand

#### 1.3 The Ultimate Parent Bank

MUFG Bank, Ltd.  
7-1, Marunouchi 2-chome  
Chiyoda-ku, Tokyo 100-8388, Japan

#### 1.4 The Ultimate Holding Company

Mitsubishi UFJ Financial Group, Inc.  
7-1, Marunouchi 2-chome  
Chiyoda-ku, Tokyo 100-8388, Japan

#### 1.5 Summary of Regulations

There are no regulations, legislation or other restrictions of a legally enforceable nature which may materially inhibit the legal ability of MUFG Bank, Ltd., or Mitsubishi UFJ Financial Group, Inc. to provide material financial support to MUFG Bank, Ltd. Auckland Branch.

# Financial Statements

## For the Year Ended 31 March 2026

### 2. Recognition and Priority of Claims of Creditors or Classes in the Event of Insolvency

The Deposit Insurance Law of Japan is intended to protect depositors if a financial institution fails to meet its obligations. The Deposit Insurance Corporation of Japan (DICJ) was established in accordance with that law. The Deposit Insurance System (DIS) is administered by the DICJ. The DICJ is a semi-government organization that was established in 1971 with the purpose of operating Japan's deposit insurance system, in compliance with the Deposit Insurance Law. Banks and certain other credit institutions participate in the DIS on a compulsory basis.

All deposits are protected and subject to the JPY 10 million maximum per customer. The only exception is for non interest deposits that are redeemable on demand and used by the depositor primarily for payment and settlement functions. The deposits in settlement accounts are fully protected without a maximum amount limitation. The DICJ charges insurance premiums on an annual basis on all deposits for the protection.

Certain types of deposits such as foreign currency deposits (currencies other than JPY), negotiable certificates of deposit, and deposit in overseas branches are outside the scope of protection under the DIS. Liquidation dividends will be payable in accordance with the asset situation of the failing financial institution. The following deposits of MUFG Bank, Ltd., Auckland Branch are not protected:

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
Amount due to related parties	1,671,874,465	2,961,442,796
Retail deposit	128,712,006	127,167,430
Certificate deposit	1,682,724,151	1,481,341,316
Call deposit	228,392,999	479,137,225
Term deposit	1,828,389,836	732,345,662
	5,540,093,457	5,781,434,429

In the event of a bank default, except for the above protection afforded by the DIS, all creditors will rank equally.

### 3. Excess of Assets Over Deposit Liabilities

MUFG Bank, Ltd., Auckland Branch is not required by any statute to hold in New Zealand an excess of assets over deposit liabilities.

In Japan, under Japanese law for the Reserve Requirement System, Japanese banks (including MUFG Bank, Ltd.) are required to maintain certain reserves on deposit with the Bank of Japan based on the amount of deposit balances and certain other factors. This requirement has potential impact on the management of the liquidity of the New Zealand operations.

### 4. Guarantee Arrangement

The obligations of the Banking Group are not guaranteed under any guarantee (including government guarantee and cross guaranteeing arrangements) as at the date of signing this Disclosure Statement.

## For the Year Ended 31 March 2026

---

### 5. Directorate (continued)

#### 5.4 Director and New Zealand Chief Executive Officer related transactions

A related transaction is out of the normal course of business, is entered into on terms other than those that would be given to any other person or could be reasonably likely to influence materially the exercise of the Directors' or New Zealand Chief Executive Officer's duties. There have been no related transactions for year ended 31 March 2026 (2025: Nil).

#### 5.5 MUFG Bank, Ltd. does not have a board audit committee. However, the Bank has elected to adopt a corporate governance system based on corporate auditors which includes ten corporate auditors, six of whom are external corporate auditors as of 31 March 2026.

#### 5.6 Dealing with Conflicts of Interest arising from personal, professional or business interests

When a Director or a Corporate Executive Officer engages in a transaction involving a conflict of interest, the Director or the Corporate Executive Officer must receive the approval of the Board of Directors.

When there is a risk of an unavoidable conflict of interest with a different division that the director in charge of the Compliance Division is also in charge of, to ensure the independence of the Compliance Division, the general manager of the Compliance Division shall report to the President and CEO. The President and CEO will report to the Board of Directors of Executive Committee as necessary.

When a conflict of interest arises in connection with an operation involving any of the MUFG Group companies, Directors or employees, on one hand, and a customer or other third-party, the Director or employee, the MUFG Group company to which such Director or employee belongs, or any other MUFG Group company, on the other, the MUFG Group company, Director or employee must perform the operation in a proper manner.

### 6. Auditors

Name and address of Auditor whose report is referred to in this Disclosure Statement:

Deloitte Limited  
Deloitte Centre  
1 Queen Street  
Auckland 1010  
New Zealand

### 7. Conditions of Registration

There have been no changes to the conditions of registration since the last disclosure statement as at 30 September 2025.

**These conditions of registration apply on and after 1 July 2024.**

The registration of MUFG Bank, Ltd. (“the registered bank”) in New Zealand is subject to the following conditions:

1. That the banking group does not conduct any non-financial activities that in aggregate are material relative to its total activities.

In this condition of registration, the meaning of “material” is based on generally accepted accounting practice.

2. That the banking group’s insurance business is not greater than 1% of its total consolidated assets.

For the purposes of this condition of registration, the banking group’s insurance business is the sum of the following amounts for entities in the banking group:

- (a) if the business of an entity predominantly consists of insurance business and the entity is not a subsidiary of another entity in the banking group whose business predominantly consists of insurance business, the amount of the insurance business to sum is the total consolidated assets of the group headed by the entity; and
- (b) if the entity conducts insurance business and its business does not predominantly consist of insurance business and the entity is not a subsidiary of another entity in the banking group whose business predominantly consists of insurance business, the amount of the insurance business to sum is the total liabilities relating to the entity’s insurance business plus the equity retained by the entity to meet the solvency or financial soundness needs of its insurance business.

In determining the total amount of the banking group’s insurance business—

- (a) all amounts must relate to on balance sheet items only, and must comply with generally accepted accounting practice; and
- (b) if products or assets of which an insurance business is comprised also contain a non-insurance component, the whole of such products or assets must be considered part of the insurance business.

# Financial Statements

## For the Year Ended 31 March 2026

---

### 7. Conditions of Registration (continued)

For the purposes of this condition of registration,—

“insurance business” means the undertaking or assumption of liability as an insurer under a contract of insurance:

“insurer” and “contract of insurance” have the same meaning as provided in sections 6 and 7 of the Insurance (Prudential Supervision) Act 2010.

3. That the business of the registered bank in New Zealand does not constitute a predominant proportion of the total business of the registered bank.
4. That no appointment to the position of the New Zealand chief executive officer of the registered bank shall be made unless:
  - (a) the Reserve Bank has been supplied with a copy of the curriculum vitae of the proposed appointee; and
  - (b) the Reserve Bank has advised that it has no objection to that appointment.
5. That MUFG Bank, Ltd. complies with the requirements imposed on it by the Japanese Financial Services Agency.
6. That, with reference to the following table, each capital adequacy ratio of MUFG Bank, Ltd. must be equal to or greater than the applicable minimum requirement.

Capital adequacy ratio	Minimum requirement on and after 1 July 2024
Common Equity Tier 1 capital	4.5%
Tier 1 capital	7%
Total capital	9%

## Financial Statements For the Year Ended 31 March 2026

---

### 7. Conditions of Registration (continued)

For the purposes of this condition of registration, the capital adequacy ratios—

- (a) must be calculated as a percentage of the registered bank's risk weighted assets; and
  - (b) are otherwise as administered by the Japanese Financial Services Agency.
7. That liabilities of the registered bank in New Zealand, net of amounts due to related parties (including amounts due to a subsidiary or affiliate of the registered bank), do not exceed NZ\$15 billion.
  8. That retail deposits of the registered bank in New Zealand do not exceed \$200 million. For the purposes of this condition of registration retail deposits are defined as deposits by natural persons, excluding deposits with an outstanding balance which exceeds \$250,000.
  9. That, for a loan-to-valuation measurement period ending on or after 31 December 2024, the total of the business of the registered bank in New Zealand's qualifying new mortgage lending amount in respect of property-investment residential mortgage loans with a loan-to-valuation ratio of more than 70%, must not exceed 5% of the total of the qualifying new mortgage lending amount in respect of property-investment residential mortgage loans arising in the loan-to-valuation measurement period.
  10. That, for a loan-to-valuation measurement period ending on or after 31 December 2024, the total of the business of the registered bank in New Zealand's qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans with a loan-to-valuation ratio of more than 80%, must not exceed 20% of the total of the qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans arising in the loan-to-valuation measurement period.
  11. That, for a debt-to-income measurement period, the total of the business of the registered bank in New Zealand's qualifying new mortgage lending amount in respect of property-investment residential mortgage loans with a debt-to-income ratio of more than 7, must not exceed 20% of the total of the qualifying new mortgage lending amount in respect of property-investment residential mortgage loans arising in the debt-to-income measurement period.
  12. That, for a debt-to-income measurement period, the total of the business of the registered bank in New Zealand's qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans with a debt-to-income ratio of more than 6, must not exceed 20% of the total of the qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans arising in the debt-to-income measurement period.
  13. That the business of the registered bank in New Zealand must not make a residential mortgage loan unless the terms and conditions of the loan contract or the terms and conditions for an associated mortgage require that a borrower obtain the registered bank's agreement before the borrower can grant to another person a charge over the residential property used as security for the loan.

In these conditions of registration,—

“banking group” means the New Zealand business of the registered bank and its subsidiaries as required to be reported in group financial statements for the group's New Zealand business under section 461B(2) of the Financial Markets Conduct Act 2013.

# Financial Statements

## For the Year Ended 31 March 2026

### 7. Conditions of Registration (continued)

“business of the registered bank in New Zealand” means the New Zealand business of the registered bank as defined in the requirement for financial statements for New Zealand business in section 461B(1) of the Financial Markets Conduct Act 2013.

“generally accepted accounting practice” has the same meaning as in section 8 of the Financial Reporting Act 2013.

“liabilities of the registered bank in New Zealand” means the liabilities that the registered bank would be required to report in financial statements for its New Zealand business if section 461B(1) of the Financial Markets Conduct Act 2013 applied.

In conditions of registration 9 to 10,—

“loan-to-valuation ratio”, “non property-investment residential mortgage loan”, “property-investment residential mortgage loan”, “qualifying new mortgage lending amount in respect of property-investment residential mortgage loans”, “qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans”, and “residential mortgage loan” have the same meaning as in the Reserve Bank of New Zealand document entitled “Framework for Restrictions on High-LVR Residential Mortgage Lending” (BS19) dated October 2021, and where the version dates of the Reserve Bank of New Zealand Banking Prudential Requirement (BPR) documents referred to in BS19 for the purpose of defining these terms are—

BPR document	Version date
BPR131: Standardised credit risk RWAs	1 July 2024
BPR001: Glossary	1 October 2023

“loan-to-valuation measurement period” means a period of six calendar months ending on the last day of the sixth calendar month.

In conditions of registration 11 and 12,—

“debt-to-income ratio”, “debt-to-income measurement period”, “non property-investment residential mortgage loan”, “property-investment residential mortgage loan”, “qualifying new mortgage lending amount in respect of property-investment residential mortgage loans”, and “qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans” have the same meaning as in the Reserve Bank of New Zealand document entitled “Framework for Restrictions on High Debt-To-Income Residential Mortgage lending” (BS20) dated 3 April 2023, and where the version dates of the Reserve Bank of New Zealand Banking Prudential Requirement (BPR) documents referred to in BS20 for the purpose of defining these terms are—

BPR document	Version date
BPR131: Standardised credit risk RWAs	1 July 2024
BPR001: Glossary	1 October 2023

# Financial Statements

## For the Year Ended 31 March 2026

### 7. Conditions of Registration (continued)

“debt-to-income measurement period” means—

- (a) the initial period of six calendar months from the date of this conditions of registration (1 July 2024) ending on 31 December 2024; and
- (b) thereafter, a rolling period of six calendar months ending on the last day of the sixth calendar month, the first of which ends on 31 January 2025 and covers the months of August, September, October, November and December 2024 and January 2025.

In condition of registration 13, —

“residential mortgage loan” has the same meaning as in the Reserve Bank of New Zealand document entitled “Framework for Restrictions on High Debt-To-Income Residential Mortgage lending” (BS20) dated 3 April 2023, and where the version dates of the Reserve Bank of New Zealand Banking Prudential Requirement (BPR) documents referred to in BS20 for the purpose of defining these terms are—

BPR document	Version date
BPR131: Standardised credit risk RWAs	1 July 2024
BPR001: Glossary	1 October 2023

### 8. Pending Proceedings or Arbitration

There are no pending proceedings or arbitration concerning MUFG Bank, Ltd., Auckland Branch, or MUFG Bank, Ltd. Group that may have a material adverse effect on the Auckland Branch, or MUFG Bank, Ltd.

### 9. Credit Rating

The Registered Bank has the following long term credit ratings which are applicable to the Banking Group in New Zealand as at the date signing of this Disclosure Statement.

	Current Rating	Previous Rating (if changed in the previous two years)
Standard & Poor’s	A	-
Moody’s	A1	-
Fitch	A	A-

Rating scales are:

Credit Ratings	S&P’s	Moody’s	Fitch
Highest quality/Extremely strong capacity to pay its financial commitments	AAA	Aaa	AAA
High quality/Very strong capacity to pay its financial commitments	AA	Aa	AA
Upper medium grade/Strong capacity to pay its financial commitments	A	A	A
Medium grade (lowest investment grade)/Adequate to pay its financial commitments	BBB	Baa	BBB
Predominantly speculative/Less near term vulnerability to default	BB	Ba	BB
Speculative, low grade/Great vulnerability	B	B	B
Poor to default/identifiable vulnerability	CCC	Caa	CCC
Highest speculations	CC	Ca	CC
Lowest quality, no interest	C	C	C
Defaulted on obligations	D	-	D

## Financial Statements For the Year Ended 31 March 2026

### 9. Credit Rating (continued)

Standard & Poor's and Fitch – Ratings are modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Moody's – A numeric modifier is applied to each generic rating category from Aa to B, indicating that the counterparty is (1) in the higher end of its letter-rating category, (2) in mid-range, (3) in lower end.

### 10. Historical Summary of Financial Statements

The following table is a historical summary taken from audited financial statements of MUFG Bank, Ltd., Auckland Branch.

	Year ended 31 March 2026 NZD(000's)	Year ended 31 March 2025 NZD(000's)	Year ended 31 March 2024 NZD(000's)	Year ended 31 March 2023 NZD(000's)	Year ended 31 March 2022 NZD(000's)
(a) Total interest revenue	275,660	384,697	395,459	240,422	79,302

### 11. Climate Disclosure Statement

The Branch has been exempted from Part 7A of the Financial Markets Conduct Act 2023 to issue a climate reporting statement in the financial year 2026.

(1) The exemption is subject to the conditions that:

- a) The Bank will procure that MUFG Group publishes annual consolidated climate statements in relation to its global business (which includes the Bank's New Zealand branch) which are aligned with IFRS Sustainability Disclosure Standards issued by the International Sustainability Standards Board (ISSB) or with reporting standards which are sufficiently equivalent; and
- b) The Bank will deliver to the Registrar for lodgement the climate statements of MUFG Group referred to in subclause (1)(a) as soon as practicable following publication and within 6 months of the balance date of MUFG Group to which those climate statements relate; and
- c) Within 4 months after the end of an accounting period in respect of which the Bank relies on this exemption, the Bank must lodge with the Registrar the required notice; and
- d) The Bank will report to the Financial Markets Authority—
  - (i) should the Bank's status change in relation to any of the requirements detailed in clause 5(2), so that one or more of those events is planned or reasonably likely to occur;

## For the Year Ended 31 March 2026

---

### 11. Climate Disclosure Statement (continued)

- (ii) within 10 working days of any of the Termination Events having taken place.

### 12. Other Material Matters

There are no matters relating to the business or affairs of the Registered Bank and its Banking Group that are not contained elsewhere in the Disclosure Statement and would, if disclosed, materially affect the decision of a person to subscribe for debt securities of which the Registered Bank or any member of its Banking Group is the issuer.

### 13. Financial Statements of the Registered Bank and the Overseas Banking Group

The most recent publicly available Disclosure Statement for the Banking Group can be accessed via the Branch's website: [www.nz.bk.mufg.jp](http://www.nz.bk.mufg.jp). Copies of the most recent publicly available Disclosure Statement for the Banking Group will be provided within two working days at no charge to any person who requests a copy.

The most recent publicly available Financial Statements of the Registered Bank and the Overseas Banking Group may be accessed via the Bank's global website: [www.mufg.jp](http://www.mufg.jp). In addition, Financial Statements are also prepared and filed with the United States Securities and Exchange Commission, Washington, D.C.

### 14. Directors' and Managing Director Auckland Branch's Statements

After due enquiry, each Director and the Managing Directors Auckland Branch believe that:

as at the date on which the Disclosure Statement is signed;

- the Disclosure Statement contains all the information that is required by the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order 2014 (as amended);
- the Disclosure Statement is not false or misleading;

and over the twelve-month accounting period ended 31 March 2026;

- MUFG Bank, Ltd., Auckland Branch had systems in place to monitor and control adequately the material risks of the Banking Group, including credit risk, concentration of credit risk, interest rate risk, currency risk, equity risk, liquidity risk and other business risks, and that those systems were being properly applied; and
- MUFG Bank, Ltd. has complied with all Conditions of Registration that applied during the period.

Signed for and on behalf of the Board of Directors of MUFG Bank, Ltd. by their agent duly appointed in writing, and by the Managing Director, Auckland Branch.

# Notes to the Financial Statements For the Year Ended 31 March 2026

---

## 1. Statement of Material Accounting Policies

### a) Reporting entity and Statement of Compliance

MUFG Bank, Ltd., Auckland Branch (“The Branch”) operates in Auckland, New Zealand and the Registered Bank is incorporated in Japan. The Branch is profit-oriented and is an FMC Reporting Entity under the Financial Markets Conduct Act 2013. The financial statements of the Branch incorporated in this Disclosure Statement have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (“NZ GAAP”) and the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order 2014 (as amended). They comply with New Zealand Equivalents to IFRS Accounting Standards (“NZ IFRS”) and other applicable financial reporting standards as appropriate for profit-orientated entities. The financial statements also comply with IFRS Accounting Standards (“IFRS”).

The financial statements were authorised for issue by the directors on the date of signing this Disclosure Statement.

### b) Basis of Preparation

The financial statements are presented in New Zealand dollars.

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain non-current assets and financial instruments. The going concern assumption and the accrual basis of accounting have been adopted.

Cost is based on the fair-value of the consideration given in exchange for assets.

### c) Changes in Accounting Policy

The accounting policies used by the Branch are consistent with those used in previous period.

### d) Comparative Figures

There has been no re-statement on comparative figures for this financial statement.

### e) Use of Estimates and Judgments

The preparation of financial statements requires the management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. The management has reviewed and applied its estimation and judgment on an ongoing basis.

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies

#### a) Standards and Interpretations approved but not yet effective

The Branch has not yet completed its assessment of the impact of the NZ IFRS 18 Presentation and Disclosure in Financial Statements and Amendments to the Classification and Measurement of Financial Instruments (Amendments to NZ IFRS 9 and NZ IFRS 7). These amendments are expected to affect the presentation in future financial statements

At the date of authorisation of this disclosure statement, the Branch has not applied new and revised NZ IFRS standards and amendments that have been issued but are not yet effective. It is not expected that the adoption of any other standards and amendments will have a material impact on the disclosure statements of the Branch.

#### b) Foreign Currency

##### (i) *Functional and presentation currency*

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The financial statements are presented in New Zealand dollars, which is the Branch’s functional and presentation currency.

##### (ii) *Transactions and balances*

Foreign currency balances are translated into the functional currency using the rates of exchange ruling at balance date. Transactions denominated in foreign currency are translated into their reporting currency using the exchange rate in effect at the close of the transaction date. Gains and losses on foreign exchange dealings and differences are recognised in the profit or loss in the period in which they arise.

#### c) Interest

For all interest bearing financial instruments, interest income and expense are recognised in the profit and loss using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payment or receipts through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, cash flows are estimated based upon contractual terms and behavioural aspects of the financial instrument (e.g. prepayment options), but do not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

#### d) Fee and Commission Income

Fee income integral to the loan categorised as loans and receivables are accounted for under NZ IFRS 9 and included in the effective interest rate, and recognised in profit and loss over the expected life of the instrument.

Fees and commissions that related to the execution of a significant act (for example, advisory or arrangement services) are recognised when the significant act has been completed. Fees charged for providing ongoing services (for example, maintaining and administering existing facilities) are recognised as income over the period the service is provided.

## Notes to the Financial Statements For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

#### e) Other expense

Operating and administration expenses are recognized on an accrual basis.

Management expenses are charged by the Overseas Banking Group to reflect the cost of resources and services provided by related party.

#### f) Goods and Services Tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST) except:

- Where the amount of GST incurred is not recovered from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or
- For receivables and payables which are recognised inclusive of GST (the net amount of GST recoverable from or payable to the taxation authority is included as part of receivables or payables).

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing which is recovered from, or paid to, the taxation authority is classified as operating cash flow.

#### g) Property, Plant and Equipment and Depreciation

Property, plant and equipment owned, and right-of-use assets under leasing arrangement are stated at cost less accumulated depreciation and impairment. Cost includes expenditures that are directly attributable to the acquisition of the item. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability, any initial direct costs incurred by the Branch, and any lease payments made in advance of the lease commencement date (net of any incentives received). In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on property, plant and equipment.

Depreciation is calculated on a straight line or diminishing value basis so as to write off the net cost of each asset over its expected useful life to its estimated residual value. Leasehold improvements and right-of-use assets are depreciated over the period of lease or estimated useful life, whichever is the shorter, using the straight line or diminishing value method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

Property, plant and equipment is depreciated at appropriate rates so as to write off the cost of each asset during its effective useful life using following methods:

<u>Asset value</u>	<u>Method</u>	<u>Period</u>
Less than or equal to NZD equivalent of NZD 2,190	Straight Line	1 – 3 years
More than NZD equivalent of NZD 2,190	Diminishing value	estimated useful life as follows
Furniture Fixtures and Fittings		3 – 15 years
Office Equipment		3 – 20 years

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

#### h) Financial Assets

The Branch classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income “FVOCI”, or through profit and loss “FVTPL”), and
- those to be measured at amortised cost.

The classification depends on the Branch’s business model for managing the financial assets and their contractual cash flow characteristics.

The business model reflects how the Branch manages the assets in order to generate cash flows. The Branch determines the business models at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Branch’s business model does not depend on management’s intentions for an individual instrument, therefore the business model assessment is performed at a high level of aggregation rather than on an individual instrument basis.

The Branch determines the contractual cash flow characteristics are based on the contractual cash flow test which is referred to as ‘solely payment of principal and interest’ “SPPI”. Under the SPPI test, the principal amount may change over the life of the financial assets. Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and as well as a profit margin.

At initial recognition, the Branch measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets measured at fair value through profit or loss are expensed in profit or loss. Derivative financial instruments are recognised initially at fair value and are subsequently measured at fair value through profit or loss.

Subsequently, financial assets are then measured according to the following classifications:

- Financial assets that fail the SPPI test will be measured at FVTPL;
- Financial assets passing the SPPI test, a business model test is performed to assess the objective of holding the assets:
  - Financial assets will be measured at amortised cost if they are held within a business model where the objective is to hold financial assets in order to collect contractual cash flows;
  - Financial assets will be measured as FVOCI if they are held within a business model where the objective is achieved by both collecting contractual cash flows and selling financial assets
  - Financial assets will be measured at FVTPL if they do not meet either of the criteria’s above.

#### *(1) Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss include derivative instruments. Derivative instruments are used to manage exposures to interest rate, foreign currency and credit risks, including exposures arising from forecast transactions.

The Branch also enters into derivative instruments for trading purposes, including foreign exchange contracts, options, interest rate swaps, and currency swaps. All derivative instruments are recognized at fair value. The fair value is determined using listed market prices or cash flow discounting models based on current market prices and contracted prices for the underlying instruments, as well as the time value of money and yield curves.

All derivative financial instruments are included under assets if their fair value is positive and under liabilities if their fair value is negative.

## Notes to the Financial Statements For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

#### *(2) Financial assets at fair value through other comprehensive income*

Investment in debt instruments are measured at fair value through other comprehensive income where they have:

- contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- are held within business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

These debt instruments are initially recognized at fair value plus direct attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment gains and losses and interest revenue are recognized in profit and loss. Upon disposal, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to the profit and loss.

#### *(3) Financial assets at amortised cost*

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost and presented as cash and cash equivalents, amounts due from related parties, amount due from other financial institutions, and corporate loans originated by the Bank. At initial recognition, the Branch measures these financial assets at its fair value plus transaction cost that are directly attributable to the acquisition of the financial assets.

Interest income from these financial assets is using the effective interest rate method. Impairment losses are included in credit impairment losses in the Statement of Comprehensive income.

#### *(4) Acceptances*

Acceptances are financial assets used to facilitate trade settlements on behalf of customer.

Acceptances are recognised in the Statement of Financial Position as both assets and liabilities. Both asset and liability are measured at amortised cost using the effective interest method.

#### *(5) Offsetting of income and expenses*

Income and expenses are not offset unless required or permitted by an accounting standard. It generally arises in the following circumstances:

- where transaction costs form an integral part of the effective interest rate of a financial instrument which is measured at amortised cost, these are offset against the interest income generated by the financial instrument; or
- where gains and loss arise from a group of similar transactions, such as foreign exchange gains and losses.

#### *(6) Offsetting Financial Assets*

Financial assets and liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise an asset and settle the liability simultaneously. In all other situations they are presented gross.

# Notes to the Financial Statements For the Year Ended 31 March 2026

---

## 2. Material Accounting Policies (continued)

### (7) Derecognition of financial assets and financial liabilities

The Branch derecognises financial assets when the rights to receive cash flows from the asset have expired or when the Branch transfers its rights to receive cash flows from the asset together with substantially all the risks and rewards of the asset. If all or substantially all risks and rewards are retained, the financial assets are not derecognised from the statement of financial position.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such as exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability.

#### i) Other assets

Other assets include all other financial assets and non-financial assets. All other financial assets are measured at amortised cost using the effective interest method. All other non-financial assets are recorded at cost.

#### j) Financial Liabilities

The Branch classifies significant financial liabilities in the following categories: Amounts due to related parties and deposits. They are recognised when an obligation arises. They are initially recognised at fair value less transaction costs and subsequently measured at amortised cost.

#### k) Other Liabilities

Other liabilities include accrued interest, other accrued expense payable and all other financial liabilities. They are recognised initially at their fair value, and subsequently measured at amortised cost.

Other liabilities also include lease liabilities which are initially measured at the present value of the lease payments as per lease contracts, discounted using the interest rate determined by the Branch's incremental borrowing rate.

#### l) Impairment of financial assets, financial guarantee and undrawn loan commitment

Impairment allowances apply to financial assets at amortised cost, financial assets at fair value through OCI, financial guarantee, and undrawn loan commitment. The Branch recognises expected credit losses (ECL) based on unbiased forward looking information as impairment allowance. The Branch calculates the ECL by three stages:

- Stage I: "12-months ECL"  
The financial instruments without significant increases in credit risk after initial recognition are included in Stage I to calculate their impairment allowance at an amount equivalent to the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months;
- Stage II: "Lifetime ECL – not credit impaired"  
Financial instruments that have had a significant increase in credit risk since initial recognition but have no objective evidence of impairment are included in Stage II, with their impairment allowance measured at an amount equivalent to the ECL that will result from all possible default events over the expected life of financial instruments;
- Stage III: "Lifetime ECL – credit impaired"  
Financial instruments with objective evidence of impairment at the balance sheet date are included in stage III, with their impairment allowance measured at the lifetime ECL.

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 2. Material Accounting Policies (continued)

During the year ended 31 March 2026, the Branch updated its estimation methodology for expected credit losses (ECL). This change reflects a transition from applying a portfolio-level Oceanic macroeconomic factor to incorporating forward-looking macroeconomic information on a borrower-specific basis. Under the revised approach, macroeconomic considerations are embedded within individual borrower ratings, which are used to derive probability of default (PD) inputs in the ECL calculation. This enhancement enables a more granular and risk-sensitive assessment of credit exposures by capturing the specific economic environment and industry conditions relevant to each borrower. The change has been applied prospectively as a change in estimate, improving the accuracy and robustness of the ECL methodology.

Financial instruments can be transferred between the different stages depending on their relative increase in credit risk since initial recognition.

#### *Measurement of ECL*

The assessment of credit risk, and the estimation of ECL, are unbiased and probability-weighted, and incorporate all available information which is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date.

The Branch calculates ECL by using the following components: a borrower rating (BR), a probability of default (PD), exposure at default (EAD) and an expected recovery ratio (ER).

The BR represents the credit risk level of the borrower. It is designed to assess the medium-to long-term creditworthiness of the borrower based on the quantitative analysis (financial analysis, etc.) and qualitative analysis (industry trend, corporate competitiveness, management policy, etc). Significant research and analysis is undertaken to assess the creditworthiness for each borrower. In addition, the local economic environment, local business environment, and future macroeconomic conditions are also considered and reflected in the rating. They are based on current economic forecasts including (but are not limited to) GDP growth rate, and CPI rate. The estimation of forward looking information is a critical accounting judgement. For example, if there are 2 customers who have the same level of creditworthiness but they are in different industries, the local economic impact on these industries will also affect the BR rating of these 2 customers. If there are 2 customers who have the same level of creditworthiness but they are in different countries, the countries' economic impact will also affect the BR rating of these 2 customers. All the analysis and factors are reviewed annually, and the BR is updated accordingly. For ECL calculation, a stress test model is used to forecast the movement of BR in 1 year under different scenarios assumption and data. The BR under 1 year estimation is used for ECL calculation.

PD is the ratio of default for a certain period. "Default" is referred to the downgrade of BR to rating 9 or below. "PD rate" is extracted from the registered bank's PD model date which are based on real default data under MUFG group in past years.

ER is the collection ratio from each collateral, guarantee and unsecured portion.

The ECL should be calculated by PD on individual borrower rating and following formula:

$$\text{ECL} = \text{EAD} \times \text{PD} \times (1 - \text{ER})$$

The 3 stages for calculating ECL is based on following matrix with borrower rating:

Stages	Borrower Rating
I	1 to 8.2
II	8.3
III	9

# Notes to the Financial Statements For the Year Ended 31 March 2026

## 2. Material Accounting Policies (continued)

Assets may move in both directions through the stages of the impairment model due to the creditworthiness of the borrower. Assets previously in stage 1 may move to stage 2 if it is considered that there has been a significant increase in credit risk. Similarly, assets in stage 2 may move to stage 3 if they are assessed to be non-performing.

For Borrower rating 10, 100% exposure will be written off from financial asset as credit loss.

The calculation of expected credit losses (ECL) incorporates forward-looking information using multiple economic scenarios. The Branch applies three scenarios and one HO Model being:

- **Main scenario** – reflects the Branch’s central view of economic conditions over a 12-month horizon, based on current forecasts for key macroeconomic indicators.
- **Risk scenario** – reflects a downside scenario over a 12-month horizon, incorporating a deterioration in economic conditions relative to the Main scenario.
- **Stress scenario** – reflects a severe downturn over a 12-month horizon, incorporating significantly adverse movements in macroeconomic conditions.
- **HO (baseline model)** – reflects prevailing macroeconomic conditions within the 12-month probability-weighted ECL measurement.

For the various scenarios, borrower rating (BR) calibrations are derived to reflect the economic conditions under each scenario. BRs are mapped to probability of default (PD), which are then used in the ECL calculation together with exposure at default (EAD) and expected recovery ratio (ER).

ECL for Stage I financial instruments is measured as a probability-weighted estimate of 12-month expected credit losses across these components. The assigned weightings reflect the relative likelihood of each outcome, as set out below:

Scenario	WA Probability
Main	60%
Risk	30%
Stress	5%
HO	5%

### m) Provisions

Provisions are recognised when the Branch has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated.

### n) Employee benefits

#### (i) Wages and salaries, annual leave and sick leave

Provisions for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in respect of employees’ services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

Provisions for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

## Notes to the Financial Statements For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

#### (ii) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts redundancy in exchange for these benefits. The Branch recognises termination benefits when it is demonstrably committed to terminate the employment of current employees. The Branch does not have a formal plan for termination benefits.

#### o) Leasing

Lease arrangements entered into by the Branch are for the purpose of accommodating the Branch's needs. These include lease arrangement over premises and office equipment used by staff in conducting business activities.

Rental payments are determined in terms of the relevant lease requirements, usually reflecting market rentals during the time when the Branch is negotiating the lease with the lessor. The Branch as lessee has no purchase options over premises occupied. There are no restrictions imposed on the Branch's lease of space other than those forming part of the negotiated lease arrangement for the premise.

Extension option is included in the property lease but there is no termination option. This extension option is used to maximize operational flexibility in terms of managing contracts. The extension option is exercisable only by the Branch and not by the lessor.

At lease commencement date, the Branch recognizes a right-of-use asset and a lease liability in the statement of financial position. The right-of-use asset is measured at cost, which is made up the initial measurement of the lease liability, any initial direct costs incurred by the Branch, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Branch depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the end of the lease term in line with lease payment excluding interest factor. The Branch also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Branch measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Branch's incremental borrowing rate being the rate that the Branch would have to borrow the funds necessary to obtain an asset of similar value with similar terms.

Lease payments included in the measurement of the lease liability includes fixed payments as per lease contracts. Subsequent to initial measurement, the lease liability will be reduced for lease payment made and increased for interest. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Branch has elected to account for short-term leases (less than 12 months) and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit and loss on a straight-line basis over the lease term.

On the statement of financial position, right-of-use assets have been included in Right-of-use assets and lease liabilities have been included in Other Liabilities.

Interest expense on lease liability and depreciation on right-of-use assets are recognized in the profit and loss as an expense.

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

#### p) Contingent Liabilities and Credit Commitments

The Branch is involved in a range of transactions that give rise to contingent and/or future liabilities. The Branch discloses a contingent liability when it has a possible obligation arising from past events that will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the Branch's control. A contingent liability is disclosed when a present obligation is not recognised because it is not probable that an outflow of resources will be required to settle an obligation, or the amount of the obligation cannot be measured with sufficient reliability.

The Branch issues commitments to extend credit and guarantees. These financial instruments attract service charges in line with market practice for similar arrangements. They are not sold or traded. The items generally do not involve cash payments other than in the event of default. The charge pricing is set as part of the broader customer credit process and reflects the probability of default. They are disclosed as contingent liabilities at their face value.

#### q) Taxation

Income tax on the profit and loss for the year comprises current and deferred tax. Income tax is recognised in the profit or loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at balance date after taking advantage of all allowable deductions under current taxation legislation and any adjustment to tax payable in respect of previous years.

Deferred tax is accounted for using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at balance date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### r) Investment Revaluation Reserve

This reserve includes changes in fair value of financial asset which are recorded in Other Comprehensive income (OCI) rather than directly in profit and loss, net of tax. These changes are transferred to the profit and loss when the asset is derecognised or impaired.

#### s) Statement of Cash Flows

The Statement of Cash Flows is prepared inclusive of GST.

Cash flows arising from commercial paper, customer deposits to and withdrawals from deposit accounts, acceptances, borrowings, repayments on loans and other receivables and acceptances of customers are presented on a net basis.

Definitions of the terms used in the Statement of Cash Flows are:

“Cash and cash equivalents” includes coins and notes, demand deposits and other highly liquid investments readily convertible into cash. At balance date all cash is held in a bank account.

“Operating activities” include all transactions and other events that are not investing or financing activities.

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 2. Material Accounting Policies (continued)

“Investing activities” are those activities relating to the acquisition and disposal of current and non-current investments and any other non-current assets.

“Financing activities” are those activities relating to changes in equity and debt capital structure of the company and those activities relating to the cost of servicing the company’s equity capital.

### 3. Risk Management Policies

The risk management policies and procedures of the Branch conform to those of the ultimate parent bank, MUFG Bank, Ltd. (“the Parent Bank”).

The Branch's application of risk management systems is subject to review by the Parent Bank Internal Audit Office on a regular basis.

#### a) Credit Risk

The MUFG Group RAS has industry risk appetite framework, including prohibited and “high caution” industries as well as a country and large exposure limit framework. These are monitored and controlled at the Group level.

Credit risk is defined as the risk of incurring a deficit due to a decrease or loss of value of assets (including off-balance-sheet assets) because of the deterioration of the borrower’s financial condition.

Supporting a number of business strategies, the branch maintains a prudent risk appetite, with the objective to preserve an overall investment grade portfolio, adhering to internal risk limits and regulatory standards and ensuring resilience through the economic cycle. These strategies include corporate lending, acquisition finance, real estate and non-recourse project and infrastructure finance, as well as supporting local subsidiaries of major global clients.

This is achieved through:

- Rigorous credit risk assessment, including an internal borrower rating and review process.
- Pricing risk appropriately through the Group’s return policy and pricing model (RORA)
- Diversification of credit risk, controlled by establishing Branch level industry and obligor limits

Additionally, portfolio risk is controlled through the establishment of limits for various portfolio metrics such as:

- o Criticised assets
- o WABR
- o Higher risk exposures

The Branch’s overseas exposures are monitored closely and country exposure limits, based upon the controls used by the Parent Bank, will be adopted where necessary.

The Branch’s exposures to financial institutions and corporates are controlled and monitored by the appropriate credit division of the Parent Bank on a consolidated basis. The limits are reviewed and approved by the Branch annually in consultation with the Parent Bank. Formal limits have been established for subsidiaries and branches of the Parent Bank and are subject to annual review. Credit risk exposures are monitored on a daily basis and any irregularities are reported to the Regional Head for Oceania immediately as they are identified.

#### b) Foreign Currency Risk

Foreign currency risk is the risk of loss to the Branch arising from fluctuations in foreign exchange rates. Foreign currency exposures and risks arise from the Branch undertaking foreign exchange transactions with customers as well as from loans and deposits undertaken in foreign currencies. The Branch does not act as a price maker

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 3. Risk Management Policies (continued)

for other institutions in the interbank foreign exchange market and does not take speculative trading positions in foreign exchange.

The currency risks arising from foreign exchange transactions with customers and from loans and deposits undertaken in foreign currencies are immediately transferred to the Sydney Branch by entering into back to back foreign exchange transactions. These risks are managed within the Sydney Branch's foreign exchange risk limits.

The Sydney Branch has a set of formal policies and limits governing transaction limits, daylight limits, overnight position limits and foreign currency options portfolio limits. Overnight, currency option risk and forward limits are set and monitored by the Parent Bank.

#### c) Interest Rate Risk

Interest rate risk is the risk of loss to the Branch arising from movements in interest rates. The Branch's activities in the following areas will expose it to interest rate risk: borrowing from and lending to customers and related parties; issuing securities such as commercial paper and medium term notes; trade finance transactions; investing in securities such as commercial paper, bank bills and government stock; and offering instruments such as FRAs and swaps to customers. The Branch does not act as a price maker for other institutions in the interbank market and does not take a speculative trading position in interest rate instruments.

Any long term interest rate risks of the Branch arising from the above activities are immediately transferred to the Sydney Branch by entering into back to back transactions. Short term interest rate risk of the Branch will be monitored and managed daily by the Sydney Branch. An interest rate position analysis is performed on a daily basis. The risks are managed within the guidelines and limits set by the Parent Bank. The Oceania Region's Asset and Liability Management Committee comprising senior management meets monthly to monitor the Branch's interest rate and liquidity risk positions.

#### d) Traded Equity Risk

Traded equity risk is the risk of loss arising from adverse movements in the prices of traded equities. The Branch does not undertake any activities exposing it to traded equity risk.

#### e) Liquidity Risk

Liquidity risk is the risk that the Branch will not have sufficient funds to meet its financial obligations. The Branch has policies to ensure that sufficient funds are available to meet its obligations as and when they fall due, and to maintain a prudent level of liquidity buffer to meet unexpected demands for funds under adverse market conditions. To achieve this objective, the Branch adopts a set of liquidity management strategies which limits the liquidity risk to acceptable levels. The compliance of such internal limits are being independently monitored and regularly reported to the Regional Head for Oceania. A contingency plan has been developed in the event of a major liquidity problem. The operations of the Branch are subject to these policies.

The Branch measures its liquidity requirements by undertaking scenario analysis under the following three scenarios:

Going-concern – which refers to the normal behavior of cash flows in the ordinary course of business and would form the day-to-day focus of the Branch's liquidity management.

5 Day stress tests – which covers the behavior of cash flows where there is an immediate actual or perceived problem with the Branch

Liquidity Coverage Ratio – a one month liquidity stress described in the APRA APS 210 standard

# Notes to the Financial Statements For the Year Ended 31 March 2026

### 3. Risk Management Policies (continued)

The Branch is committed to raising its liabilities from a wide range of institutional and corporate lenders. This reduces dependence upon certain lenders and the possibility that a large portion of the deposit base will be withdrawn with little notice. As part of its liquidity management policies, the Branch maintains a portfolio of readily liquid assets and has established committed funding arrangements from other institutions. Liquidity is managed by the Treasury Department of the Sydney Branch with oversight from the Oceania Region Asset and

Liability Management Committee. Reports on liquidity are reviewed by the Regional Head for Oceania, sent to the Parent Bank daily and presented to the Oceania Region Asset and Liability Management Committee monthly.

The Branch holds the following liquid assets in order to manage its liquidity risk:

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
Cash and cash equivalents	53,895,591	37,800,924
Amounts due from related parties	12,773,867	17,273,185
Amounts due from other financial institutions	1,311,007,795	1,164,863,249
Investment in debt instruments	-	131,587,528
	1,377,677,253	1,351,524,886

#### f) Commodity Risk

Commodity risk is the risk of loss arising from adverse movements in the prices of commodities. The Branch does not undertake any activities exposing it to commodity risk.

#### g) Operational Risk

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk but excludes credit, market, strategic and reputation risk. However the cultural nature of the Branch is such that reputational risk arising from operational risk events is considered within our operational risk management frameworks.

Oceania branch utilises the three lines of defence approach to the management of risk, with the business lines accountable for the application of the Operational Risk framework, and the management of risks. The dedicated second line function is accountable for the design of the Operational Risk Framework and provision of assurance over the application.

The primary method the Branch uses to manage Operational Risk is by having a robust suite of controls. The Branch also has operating procedures that have been established to conform to the Parent Bank's guidelines. Operational procedures are documented in procedural manuals for each department and approved variances to these procedures are noted and tracked.

#### h) Climate Risk

Climate risk, or the risks driven by climate change, is also managed under the Policies and Procedures of the Parent Bank. Climate risk is recognised by Mitsubishi UFJ Financial Group, Inc (MUFG Group) as one of the top systemic risks faced by the MUFG Group and impacts, amongst others; credit, operational, legal / compliance and reputational risks. The Policies and Procedures pertaining to Climate Risk are driven by the MUFG Group Purpose: "Committed to empowering a brighter future" and the Carbon Neutrality Declaration to be carbon neutral by 2050. To achieve this, and ultimately manage the risks associated with climate change, the Group has 4 key strategies:

- Reducing emissions from own operations
- Reducing emissions from our financed portfolio
- Engagement and support with our clients

# Notes to the Financial Statements

## For the Year Ended 31 March 2026

---

### 3. Risk Management Policies (continued)

- Risk management and governance

These strategies are overseen at MUFG Group level by a Sustainability Committee reporting directly to the MUFG Group Executive Committee and are implemented throughout the MUFG Group and overseen at New Zealand Branch level by the Oceania Executive Committee.

#### i) Internal Audit Function

Audit teams from the Parent Bank conduct on-site audits of the Branch's procedures including loans, treasury and general office inspections on regular basis in accordance with the banks Internal Audit methodology. These are based on the Branch's risk profile under the Parent Bank risk based approach to scoping audits, and also based on the local regulatory requirement. The result of all internal audits are reported to corporate auditors who report to the Board of Directors under the Parent Bank's corporation governance systems.

#### j) Self Inspection

Self Inspection (SI) from Sydney Branch provides a limited procedural assurance to the Branch. The locally appointed Self Inspection Checker conducts the monthly tests and reports to the SI team in Sydney Planning Department at the beginning of the month following the month in which the applicable test was conducted. The matters raised by SI are discussed and actioned by the Branch as soon as practicable but not later than a month after identification of any risks (non-compliance of policies and procedures and/or any process gaps/weaknesses). All SI findings are reported monthly to local management and to the Parent Bank on a quarterly basis.

#### k) Access to parental disclosures

The most recent publicly available information in relation to capital adequacy requirements or risk management processes implemented by the ultimate holding company are disclosed under the ultimate holding company's annual report which can be accessed via the Bank's global website: [www.mufg.jp](http://www.mufg.jp).

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 6. Income Tax

Income Tax recognised in profit and loss

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>Tax expense comprises:</b>		
Current tax expense	20,922,824	19,578,913
Adjustments recognised in the current year in relation to the tax of prior years	(136,408)	(580,555)
Deferred tax expense relating to the origination and reversal of temporary differences	<u>(1,745,392)</u>	<u>(109,136)</u>
	<u>19,041,024</u>	<u>18,889,222</u>

The prima facie income tax benefit on pre-tax accounting profit from operation reconciles to the income tax benefit in the financial statement as follows:

Profit from operations	88,499,316	86,028,920
Income tax expense calculated at 28%	24,779,808	24,088,098
Effect of other assessable incomes	1,100,402	960,399
Effect of other deductible expenses	(6,702,778)	(5,687,920)
Effect of expenses that are not deductible in determining taxable profit	<u>-</u>	<u>109,200</u>
	19,177,432	19,469,777
Adjustment recognised in the current year in relation to the tax and deferred tax of prior years	<u>(136,408)</u>	<u>(580,555)</u>
	<u>19,041,024</u>	<u>18,889,222</u>

The prima facie income tax expense on pre-tax accounting other comprehensive income reconciles to the income tax expense in the financial statement as follows:

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
(Loss) / Profit from other comprehensive income	(238,149)	(502,075)
Income tax (benefit) /expense calculated at 28%	(66,682)	(140,581)

The Branch did not have any imputation credits as at the year ended 31 March 2026 (2025: Nil).

The Branch had NZD 733,409 current tax asset at the year ended 31 March 2026 (2025: Nil) and the Branch had no current tax liability at the year ended 31 March 2026 (2025: 13,345,515).

#### Deferred tax balance

Deferred tax assets arise from the following

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 6. Income Tax (continued)

	31 March 2026				
	NZD Opening balance*	NZD Charged to profit and loss	NZD Charged to other comprehensive income	NZD Changes in tax rate	NZD Closing balance
<b>Temporary differences</b>					
Provision for employee entitlement	35,790	8,255	-	-	44,045
Property, plant & equipment	23,255	3,096	-	-	26,351
Provision for ECL	2,541,250	(1,702,341)	-	-	838,909
Others	12,870	(54,402)	-	-	(41,532)
	2,613,165	(1,745,392)	-	-	867,773

	31 March 2025				
	NZD Opening balance	NZD Charged to profit and loss	NZD Charged to other comprehensive income	NZD Changes in tax rate	NZD Closing balance
<b>Temporary differences</b>					
Provision for employee entitlement	32,868	2,922	-	-	35,790
Property, plant & equipment	16,231	7,024	-	-	23,255
Provision for ECL	2,664,342	(123,092)	-	-	2,541,250
Others	8,860	4,010	-	-	12,870
	2,722,301	(109,136)	-	-	2,613,165

All deferred tax on temporary difference is recognised in the profit and loss. Based on current forecast, it is expected to crystallize in future to offset tax liabilities.

Half year review fees	<u>57,750</u>	<u>50,400</u>
Total fees paid to auditor	<u>246,750</u>	<u>225,750</u>

The auditor of the Branch is Deloitte Limited, Auckland.

\* Fees for the annual audit and review of financial statements, and limited assurance over the disclosure of capital adequacy and regulatory liquidity ratios

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 10. Provision for expected credit losses

The following table reconciles the 31 March 2026 provision for expected credit losses on loan, financial guarantee and commitments based on the requirements of NZ IFRS 9.

Stage 1	Loan	Financial guarantee and commitments	Total
31 March 2026	NZD	NZD	NZD
<b>Provision for impairment charges as at 31 March 2025</b>	9,075,893	3,492,721	12,568,614
Net transfers in / (out) of stages *	-	-	-
New financial assets originated	936,223	604,916	1,541,139
Financial assets derecognized during the period	(2,326,490)	(1,023,711)	(3,350,201)
Change in ECL due to net further lending / repayment	(4,689,523)	(1,414,664)	(6,104,187)
Change in ECL due to amounts written-off	-	-	-
<b>Total provision for ECL as at 31 March 2026</b>	<b>2,996,103</b>	<b>1,659,262</b>	<b>4,655,365</b>
<b>31 March 2025</b>			
<b>Provision for impairment charges as at 31 March 2024</b>	9,515,507	3,008,972	12,524,479
Net transfers in / (out) of stages *	-	-	-
New financial assets originated	2,331,168	861,402	3,192,570
Financial assets derecognized during the period	(2,635,492)	(863,057)	(3,498,549)
Change in ECL due to net further lending / repayment	(135,290)	485,404	350,114
Change in ECL due to amounts written-off	-	-	-
<b>Total provision for ECL as at 31 March 2025</b>	<b>9,075,893</b>	<b>3,492,721</b>	<b>12,568,614</b>

\* Represents the transfers between stages

The Branch does not have stage 2 and stage 3 collective provision, and individual provision during the period.

The provisions for ECL on loan, financial guarantee, and commitments disaggregated into types of credit exposures have been disclosed in note 22.

The following table details changes in the gross carrying amounts of loans during the period that have contributed to changes in the provisions for expected credit losses.

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>Total gross carrying amount at the beginning of the period</b>	4,914,352,665	5,056,062,470
Net transfers in / (out) of stages *	-	-
New financial assets originated	1,699,260,965	1,463,021,136
Financial assets derecognized during the period	(1,431,876,402)	(1,559,953,568)
Net further lending / repayment	(481,062,784)	(44,777,373)
Amounts written-off	-	-
<b>Total gross carrying amount</b>	<b>4,700,674,444</b>	<b>4,914,352,665</b>
Provision for ECL	(2,996,103)	(9,075,893)
<b>Total net carrying amount</b>	<b>4,697,678,341</b>	<b>4,905,276,772</b>

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 11. Other Liabilities

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
Provision for employee entitlements	157,307	127,824
Unearned income	5,452,312	3,452,163
Management fee charged by related parties	12,186,148	11,876,822
Provisions for ECL on financial guarantee and commitment	1,659,262	3,492,721
Lease Liabilities	480,720	619,739
Others	5,334,832	3,934,097
Total	<u>25,270,581</u>	<u>23,503,366</u>

### 12. Commitments and Contingent Liabilities

	Note	As at 31 March 2026 NZD	As at 31 March 2025 NZD
a) Other commitments			
Undrawn facility commitments	16	3,200,623,264	2,305,792,223
b) Contingent liabilities			
Guarantees given	16	21,423,504	47,742,314
Performance related contingencies	16	334,014,988	431,515,100
Trade related contingencies	16	<u>54,267,573</u>	<u>49,520,384</u>
Total		<u>409,706,065</u>	<u>528,777,798</u>

The Branch provides guarantees in its normal course of business on behalf of its customers and there are three principal types of guarantee:

- Guarantee given – a financial guarantee that is an agreement by which the Branch agrees to pay an amount of money on demand on behalf of a customer to a third party during the life of the guarantee;
- Performance related contingencies – a guarantee given by the Branch that undertakes to pay a sum of money to a third party where the customer fails to fulfill certain terms and conditions of a contract; and
- Trade related contingencies – contingent liabilities arising from trade related obligations secured against an underlying shipment of goods to make a payment to a third party if a counterparty fails to fulfill a contractual non-monetary obligation.

The credit risk involved in issuing guarantees is essentially the same as that involved in extending loan facilities to customers. Apart from the normal documentation for a facility of this type, the customer must also provide the Branch with a written indemnity, undertaking that, in the event the Branch is called upon to pay, the Branch will be fully reimbursed by the customer.

The Branch has no financial assets that have been pledged as collateral for liabilities or contingent liabilities.

The Branch has no short term lease contracts entered into as at 31 March 2026 (2025: Nil).

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 13. Key Management Personnel Compensation

The compensation of the executives, being the key management personnel of the Branch, is set out below:

	Twelve Months ended 31 March 2026 NZD	Twelve Month ended 31 March 2025 NZD
Short term benefits	1,530,675	1,367,930
	1,530,675	1,367,930

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Branch.

### 14. Related Party Disclosures

The Auckland Branch is a branch of an overseas company, MUFG Bank, Ltd., which is incorporated in Japan and is the ultimate parent bank.

Related party transactions are unsecured and entered into in the normal course of business. During the period there have been dealings between Auckland Branch, other overseas Branches and Head Office. Amounts due from related parties is related to the settlement account which is due on demand and term loans which are due in accordance with an agreed date. Amounts due to related parties are mainly term deposits which are due in accordance with an agreed date. The maturity analysis for these balances are presented in Note 19. The interest rate risk analysis for these balances are presented in Note 18. No related party debts have been written off, forgiven or calculated ECL during the reporting period.

Derivative instruments with related parties are used to manage interest rate and currency exposures and include foreign exchange forwards, interest rate swaps, currency swaps, and currency options.

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>a) Balances</b>		
<b>Assets</b>		
Amounts due from related parties	13,189,951	17,273,185

Accrual including management fee	12,190,089	11,924,651
Acceptance of customer	1,980,636	11,490,882
	1,748,820,855	3,058,576,539
Head Office capital	83,000,000	83,000,000
<b>Off balance sheet</b>		
Guarantees given	5,557,441	5,683,941

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 14. Related Party Disclosures (continued)

Performance related contingencies	2,472,948	1,950,000
	8,030,389	7,633,941

	Twelve Months ended 31 March 2026 NZD	Twelve Months ended 31 March 2025 NZD
<b>b) Transactions</b>		
Interest income	100,461	182,789
Interest expense	91,244,677	171,894,250
Net profit from derivative instruments	9,272,383	26,040,745
Fees and commissions income	419,807	5,748
Management fee expense	12,396,345	11,905,265

The Branch's Head Office capital comprises funds provided by the overseas bank to support the Branch's daily operation and to fulfill local thin capitalisation requirement. It is non-interest bearing and there is no fixed date for repatriation. The capital of the registered bank is managed by the overseas bank. The Branch does not separately manage capital other than for the purpose of the Reserve Bank of New Zealand's requirements as disclosed in Note 23 and Note 24.

### 15. Derivative Financial Instruments

The Branch uses derivatives to manage its financial position and to service the needs of its clients. Such derivative financial instruments include swaps, and forwards based on interest rates and exchange rates. The following table summarises the notional amounts and fair value by maturity date of the Branch's derivatives at 31 March 2026.

The notional principal amounts below represent the face value of the transaction.

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>Foreign Exchange Contracts</b>		
Spot and forward contracts:		
Notional principal amount < 1 year	3,663,622,320	3,408,485,446
Notional principal amount 1 to 2 years	516,524,684	419,174,707

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 16. Concentration of Credit Risk

Credit risk is the risk of loss to the Branch arising from the failure of a counterparty to repay principal and/or interest under a commitment entered into with the Branch. Credit risk arises from the lending, treasury and trade finance activities of the Branch. Credit risk also arises from the possibility that the counterparty to a derivative financial instrument will not adhere to the terms of the contract with the Branch when settlement becomes due.

Corporate loans originated by the Bank are secured partially by following collateral/credit enhancements:

- i. financial guarantee by either third parties or customer's parent company
- ii. deposit assignment
- iii. asset assignment such as aircraft

Concentration of credit risk is determined by management to be by industry sector, geographical location and customer credit rating. Industry sectors are determined by reference to the categories in the RBNZ Bank Balance Sheet Survey. The geographical locations reflect the primary location of the underlying borrower.

The following table details the Branch's maximum credit risk exposure without taking account of any collateral/credit enhancement held in respect of recognised financial assets and derivative financial instruments as at the reporting date.

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>Notional principal</b>		
On Balance Sheet		
Cash and short term liquid assets	53,895,591	37,800,924

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 16. Concentration of Credit Risk (continued)

#### iii. Concentration of Credit Risk by Customer Credit Rating

The following tables set out credit quality information for balances which are neither past due nor impaired. The credit rating numbers are the Banking Group's internal borrower ratings which are mapped to S&P ratings in accordance with the credit quality of customers for financial assets and derivative financial instruments. Please refer to Note 22 for banking Groups impaired assets.

31 March 2026

Credit Rating	S&P Rating	Notional principal		Derivative financial instruments
		On balance Sheet	Off balance Sheet	
1-2	A- and above	1,907,561,913	423,353,548	90,843,652
3-7	B- to BBB+	4,139,129,848	3,185,175,781	62,903,484
8-9	CCC+/-	55,910,293	1,800,000	200,274
Not rated*		1,799,314	-	-
		<u>6,104,401,368</u>	<u>3,610,329,329</u>	<u>153,947,410</u>

31 March 2025

Credit Rating	S&P Rating	Notional principal		Derivative financial instruments
		On balance Sheet	Off balance Sheet	
1-2	A- and above	2,342,785,787	733,773,746	42,591,323

\* The 'not rated' exposure is related to inter-branch exposure.

There is no period end aggregate exposure equal to or exceeding 10% of the global equity of the Overseas Banking Group.

#### Collateral and other credit enhancements

The general nature and amount of collateral or other credit enhancements taken to mitigate the credit risk of each financial asset class are summarized as follows:

##### a. Cash and short term liquid assets

These exposures are mainly to relatively low risk banks (rate A+, AA- or better). These balances are not collateralized.

##### b. Amounts due from related parties

These exposures are generally considered to be low risk due to the nature of the counterparties. There are typically no collateral or other credit enhancements obtained in respect of amounts due from related parties.

# Notes to the Financial Statements For the Year Ended 31 March 2026

## 16. Concentration of Credit Risk (continued)

### c. Amounts due from other financial institutions

The balance is short term deposit to other financial institutions. Collateral is not generally sought on these balances as exposures are considered to be of low risk.

### d. Investment in debt instruments

These exposures are with the New Zealand government. Collateral is not sought directly with respect to these exposures.

### e. Derivative instruments

The Branch is exposed to credit risk on derivative contracts, which arises as a result of counterparty credit risk. This credit risk from derivatives is mitigated where possible through master netting agreements whereby derivative assets and liabilities with the same counterparty can be offset. A master netting agreement provides the contractual framework within which dealing activities across a range of over-the-counter products are conducted and contractually binds both parties to apply close-out netting across all outstanding transactions covered by an agreement if either party defaults or other predetermined events occur. There have been no amounts set off in the statement of financial position for derivative assets and derivative liabilities as at 31 March 2026 (2025: Nil).

Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements:

#### As at 31 March 2026

NZD	Gross amounts of recognised financial assets (a)	Gross amounts of recognised financial liabilities set off in the statement of financial position (b)	Net amounts of financial assets presented in the statement of financial position (c) = (a) – (b)	Related amounts not setoff in the statement of financial position (d)	Net amount (e) = (c) – (d)
Derivatives	153,947,410	-	153,947,410	13,520,046	140,427,364

#### As at 31 March 2025

NZD	Gross amounts of recognised financial assets (a)	Gross amounts of recognised financial liabilities set off in the statement of financial position (b)	Net amounts of financial assets presented in the statement of financial position (c) = (a) – (b)	Related amounts not setoff in the statement of financial position (d)	Net amount (e) = (c) – (d)
Derivatives	156,939,042	-	156,939,042	10,161,809	146,777,233

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 16. Concentration of Credit Risk (continued)

Financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements:

#### As at 31 March 2026

NZD	Gross amounts of recognised financial liabilities (a)	Gross amounts of recognised financial assets set off in the statement of financial position (b)	Net amounts of financial liabilities presented in the statement of financial position (c) = (a) – (b)	Related amounts not setoff in the statement of financial position (d)	Net amount (e) = (c) – (d)
Derivatives	152,531,925	-	152,531,925	13,520,046	139,011,879

#### As at 31 March 2025

NZD	Gross amounts of recognised financial liabilities (a)	Gross amounts of recognised financial assets set off in the statement of financial position (b)	Net amounts of financial liabilities presented in the statement of financial position (c) = (a) – (b)	Related amounts not setoff in the statement of financial position (d)	Net amount (e) = (c) – (d)
Derivatives	155,878,733	-	155,878,733	10,161,809	145,716,924

There has been no collateral obtained against derivative assets for the year end 31 March 2026 (Mar 2025: Nil).

#### f. Acceptance of Customer and Other Assets

Collateral is generally not sought on these balances.

#### g. Corporate loans originated by the Bank

The Branch assesses the integrity and ability of counterparties to meet their contracted financial obligation for repayment. Principal collateral types for corporate loan include:

- i. Cash (usually in the form of a charge over a deposit)
- ii. Guarantee received from third parties
- iii. Charges over business assets such as real estate, aircraft and ships

In other instances, a client's facilities may be secured by collateral with value less than the carrying amount of the credit exposure. These facilities are deemed secured, partially secured or unsecured.

The Branch lending is generally to large corporate counterparties of strong financial standing, the majority of which borrow on unsecured terms. If there is collateral received during loan drawdown, the value of the collateral will be checked against the agreement to ensure that it is either equal to or over the agreed value. The total collateral value as at 31 March 2026 is over NZD 1,684,150,447 (2025: NZD 1,109,221,345) which is based on guarantees received from third parties and market value of business assets.

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 16. Concentration of Credit Risk (continued)

On Balance Sheet	As at 31 March 2026		As at 31 March 2025	
	NZD	%	NZD	%
Maximum Exposure	6,103,985,284	100.00	6,285,111,153	100.00
<b>Collateral classification</b>				
Secured	750,865,308	12.30	972,347,225	15.47
Partially secured	238,222,110	3.90	63,915,747	1.02
Unsecured	5,114,897,867	83.80	5,248,848,181	83.51

#### h. Undrawn facility commitments and contingent liabilities

The Branch applies the same principle for off balance sheet risk as it does for its on balance sheet risks. In the case of undrawn facility commitments, counterparties will be subject to the same principle as corporate loans and collateral may be sought depending on the strength of the counterparty and the nature of the transaction.

Off Balance Sheet	As at 31 March 2026		As at 31 March 2025	
	NZD	%	NZD	%
Maximum Exposure	3,610,329,329	100.00	2,834,570,021	100.00

### 18. Interest Rate Risk

Interest rate risk is the risk of loss to the Branch arising from movements in interest rates thereby having an adverse effect on the net interest earnings of the Branch in the current reporting period and in future years.

The following table represents the interest rate sensitivity gap of the Branch as at the reporting date. It analyses the Branch's assets and liabilities in relevant maturity groupings based on the earlier of residual contractual maturity or interest repricing date. One of the major causes of the mismatches is timing differences in the repricing of the assets and liabilities. These mismatches are managed by the Sydney Branch as part of the overall risk management process conducted in accordance with strict policy guidelines.

At 31 March 2026, assuming that all other variables held constant, if interest rates had been 50 basis points higher, post-tax profit for the year would have been NZD 3.8 million higher (2025: NZD 2.8M lower) due to increase in net interest income. It is due to the decrease in funding cost by using longer term of funding to shorter term of lending. If interest rate had been 50 basis points lower with all the variables held constant, post-tax profit would have been NZD 3.8 million lower (2025: NZD 2.8M lower) due to decrease in net interest income as a result of the funding gap. The impact of interest rate movement on pre-tax profit is immaterial due to the back to back transactions with Sydney Branch to minimize any long term interest rate risk (Note 3(c)).

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 19. Maturity Analysis for Assets and Liabilities

The tables below analyse the Branch's financial assets and liabilities, as required by NZ IFRS 7 "Financial Instruments: Disclosures", in relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The tables have been drawn up based on the undiscounted cash flows of financial assets and liabilities based on the earliest date on which the obligation is crystallised. There is no expectation that the principal or interest will be repaid or received earlier than the obligation. The table includes both interest and principal cash flows. Therefore, they may differ to the carrying amounts on the statement of financial position.

## Notes to the Financial Statements For the Year Ended 31 March 2026

---

### 19. Maturity Analysis for Assets and Liabilities (Continued)

The balances in the table above will not necessarily agree to the amounts presented on the face of the statement of financial position as the amounts in the table incorporate cash flows on an undiscounted basis and include both principal and associated future interest payments, and in respect of derivatives:

- Interest rate swaps are settled net and therefore the net cash flows (before discounting) are included in the liquidity table above; and
- Foreign exchange contracts are settled gross and therefore the gross cash flows (before discounting) are included in the liquidity table above.

As disclosed in note 3, although the bank has liquid assets over various different terms, the Branch can draw down on these liquid assets before the expected maturity as needed. The Branch has loan commitments which are on demand, the Branch has historically managed loan commitments as required based on the available liquid assets.

### 20. Fair Value of Financial Instruments

Quoted market prices, where available, are used to estimate the fair value of financial instruments. However, quoted market prices are not available for a substantial portion of financial instruments and fair value for such financial instruments is estimated using discounted cash flow models that utilise prices from observable current market transactions or other valuation techniques. The summary table shows the carrying amounts and estimated fair values of financial instruments as at the reporting date. The methodologies and assumptions used to estimate the fair value of the financial instruments are:

- a. For those assets or liabilities that are short term in nature, the related carrying value is equivalent to their fair value.
- b. For floating rate loans and deposits, the carrying amount in the statement of financial position is considered a reasonable estimate of their fair value after making allowances for impairment. For fixed rate loans and deposits, fair value is estimated using discounted cash flow models based on current market rates. The differences between estimated fair value of loans and deposits and carrying value reflect the difference between observable market interest rates and customer rates on day one and changes in interest rates since the loans' and deposits' origination.
- c. The fair values of derivative instruments are calculated using the discounted cash flow model. Swap transactions are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from observable foreign exchange and interest rates. Foreign currency forward contracts are measured using observable forward exchange rates.
- d. The fair values of investment in debt instruments are derived from quoted prices in the active market.

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 20. Fair Value of Financial Instruments (continued)

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability for substantially the entire term of the instrument, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	31 March 2026		31 March 2025	
	Level 1	Level 2	Level 1	Level 2
Derivative financial assets				
Interest rate swaps	-	22,755,779	-	40,307,032
Currency swaps	-	57,763,539	-	47,636,762
FX forwards	-	73,428,092	-	68,995,248
Total derivative financial assets	-	153,947,410	-	156,939,042
Derivative financial liabilities				
Interest rate swaps	-	21,811,409	-	39,496,964
Currency swaps	-	57,278,368	-	47,354,212
FX forwards	-	73,442,147	-	69,027,557
Total derivative financial liabilities	-	152,531,924	-	155,878,733
Investment in debt instruments	-	-	131,587,528	-

Financial assets and financial liabilities, other than the items on the above table, are carried at amortised cost. Their fair value is represented by Level 2 fair value measurements.

There were no financial assets and liabilities which are carried at fair value categorised under Level 3 in this year and prior year.

### 21. Profitability and Size

The Overseas Banking Group

#### a) Profitability

	Twelve Months ended 31 March 2026 JPY(000's)	Twelve Months ended 31 March 2025 JPY(000's)
Net Profit After Tax	1,594,185,000	1,277,077,000
Net Profit After Tax over the previous 12 months period as a percentage of average total assets	0.48%	0.39%

#### b) Size

	Twelve Months ended 31 March 2026 JPY(000's)	Twelve Months ended 31 March 2025 JPY(000's)
Total Assets	353,386,940,000	331,606,405,000
% Change in total assets over the previous 12 months	6.57%	2.39%

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 22. Asset Quality

#### (i) The Overseas Banking Group

	As at 31 March 2026 JPY(000's)	As at 31 March 2025 JPY(000's)
Total individually impaired assets (before allowances for credit impairment loss and net of interest held in suspense)	1,225,955,000	1,329,981,000
Total individually impaired assets expressed as a percentage of total assets	0.35%	0.40%
Total individual credit impairment allowance	414,388,000	402,503,000
Total individually credit impairment allowance expressed as a percentage of total individually impaired assets	33.80%	30.26%
Total collective credit impairment allowance	655,713,000	662,079,000

#### (ii) MUFG Bank, Ltd., Auckland Branch.

The provision for impairment is based on NZ IFRS 9's impairment model which requires the Branch to recognise expected credit losses (ECL) based on unbiased forward looking information. The Branch will incorporate all available information which is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of economic conditions at the reporting date.

The Branch does not have any individually impaired assets that have been recognised, any individual credit impairment allowances, and any assets that are less than 30 days past due; at least 30 days but less than 60 days past due; at least 60 days but less than 90 days past due; and at least 90 days past due but not impaired as at 31 March 2026 (31 March 2025: Nil).

The Branch did not charge or credit the statement of comprehensive income for any increase or decrease in individual credit impairment allowance during this accounting period ended 31 March 2025 (31 March 2024: Nil).

The total interest income recognised on impaired asset over this accounting period ended 31 March 2026 is Nil (31 March 2025: Nil).

There is no undrawn balance on lending commitments to counterparties for whom drawn balances are classified as individually impaired. There are no other amounts under administration.

The Branch does not have any financial assets designated as at fair value through profit or loss on which there have been changes in fair value that are attributable to changes in credit risk of the financial asset.

The Branch has only one type of credit exposure: Corporate exposures. The movement in balance of collective provision for expected credit loss and the impacts of changes in gross carrying amounts of loan by expected credit loss allowance are disclosed in note 10.

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 23. Exposures to Market Risk

Aggregate market risk exposures of MUFG Bank, Ltd., Auckland Branch have been derived in accordance with Schedule 9 of the Reserve Bank Order.

	Twelve Months Ended 31 March 2026 NZD (000's)	Twelve Months Ended 31 March 2025 NZD (000's)
(1) Aggregate Interest Rate Exposure		
(a) Notional Capital Charge *	5,881	3,738
(b) Implied risk weighted exposure	65,344	46,725

\* The Notional Capital Charge is calculated in accordance with BPR 140: Market Risk.

	Peak End of Day Ending 31 March 2026 NZD (000's)	Peak End of Day Ending 31 March 2025 NZD (000's)
(1) Aggregate Interest Rate Exposure (continued)		
(a) Notional Capital Charge **	22,559	7,329
(b) Implied risk weighted exposure	250,656	91,613

\*\* The peak end of day Notional Capital Charge has been derived by determining the maximum over the period at the close of each business day derived in accordance with BPR 140: Market Risk.

(2) Aggregate Foreign Currency Exposure  
MUFG Bank, Ltd., Auckland Branch does not have any foreign currency exposures.

(3) Aggregate Equity Exposure  
MUFG Bank, Ltd., Auckland Branch does not have any equity exposures.

By entering into foreign exchange transactions, interest rate swap transactions, currency swap transactions and long term fixed interest deposits with the Sydney Branch, the Branch does not hold any significant foreign exchange exposure and long term interest rate exposure. Please refer to Note 3 (b) and (c) for detail. Under this arrangement, the Branch is exposed to limited market risk which is immaterial.

### 24. Capital Adequacy

The capital adequacy guidelines adopted by the Financial Services Agency (FSA) in Japan that are applicable to Japanese bank holding companies and banks with international operations closely follow the risk-weighted approach introduced by the Basel Committee on Banking Supervision of the Bank for International Settlements.

Basel II, as adopted by the FSA, has been applied to Japanese banks since 31 March, 2007. Certain provisions of Basel III have been adopted by the FSA for Japanese banking institutions with international operations conducted through their foreign offices and became effective 31 March 2013. As a result, the minimum capital required by FSA is at least equal to Basel II.

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 24. Capital Adequacy (continued)

The Financial Stability Board identified the Overseas Banking Group as a global systematically important bank, or G-SIB, in its most recent annual report published in November 2017.

Effective 31 March, 2016, the FSA's capital conservation buffer, countercyclical buffer and G-SIB surcharge requirements became applicable to Japanese banking institutions with international operations conducted through foreign offices. As a result, starting from 31 March 2016, Overseas Banking Group is required to maintain a capital conservation buffer of 0.625% and a G-SIB surcharge of 0.375% in addition to the 4.50% minimum Common Equity Tier 1 capital ratio. As of the same date, no countercyclical buffer is applicable. From 31 March 2019, the Overseas Banking Group will be required to maintain a capital conservation buffer of 2.5%, a countercyclical buffer of up to 2.5%, and a G-SIB surcharge of 1.5%, assuming the Overseas Banking Group will be in Bucket 2 of the G-SIB list.

The table below presents the minimum consolidated risk-based capital ratios from:

	31 March 2026	31 March 2025
Minimum Common Equity Tier 1 ratio	4.50%	4.50%
Capital Conservation Buffer	2.50%	2.50%
Countercyclical Buffer	0.18%	0.16%
G-SIB Surcharge	1.50%	1.50%
Total	8.68%	8.66%
Minimum Tier 1 ratio	11.18%	10.16%
Minimum Capital ratio	13.18%	12.16%

Both the Overseas Banking Group and the Overseas Bank met those requirements at the reporting date.

#### Overseas Banking Group

	As at 31 March 2026	As at 31 March 2025
<b>Capital ratios:</b>		
Common Equity Tier 1 capital	13.87%	15.10%
Tier 1 capital	16.42%	17.68%
Total capital	18.02%	19.63%

#### Overseas Bank

	As at 31 March 2026	As at 31 March 2025
<b>Capital ratios:</b>		
Common Equity Tier 1 capital	10.06%	12.30%
Tier 1 capital	12.95%	15.24%
Total capital	14.34%	17.07%

The most recent publicly available information in relation to capital adequacy framework implemented by the overseas bank and overseas banking group are disclosed under the ultimate holding company's annual report which can be accessed via the Bank's global website: [www.mufig.jp](http://www.mufig.jp).

## Notes to the Financial Statements For the Year Ended 31 March 2026

### 25. Lease

The statement of financial position shows the following Right-of-use assets amounts relating to leases:

	As at 31 March 2026 NZD	As at 31 March 2025 NZD
<b>Property:</b>		
Cost as at 1 April	1,085,245	1,085,245
Additions	-	-
Disposals	-	-
Cost as at 31 March	1,085,245	1,085,245
Accumulated depreciation		
Opening balance	492,220	359,326
Depreciation during the year	136,369	132,894
Disposals	-	-
Closing balance	628,589	492,220
	456,656	593,025
<b>Office equipment:</b>		
Cost as at 1 April	9,962	9,962
Additions	-	-
Disposals	-	-
Cost as at 31 March	9,962	9,962
Accumulated depreciation		
Opening balance	9,748	7,197
Depreciation during the year	214	2,551
Disposals	-	-
Closing balance	9,962	9,748
	-	214
<b>Net book value as at 31 March</b>	<b>456,656</b>	<b>593,239</b>

The statement of financial position shows the following lease liabilities amounts:

Current lease liabilities	143,198	139,019
Non current lease liabilities	337,522	480,720
Total lease liabilities	480,720	619,739

The following are the amounts recognized in profit and loss:

Depreciation expense of right-of-use assets	136,583	135,445
Interest expense on lease liability	14,381	17,884
Total right-of-use assets	150,964	153,329

The total cash outflow for lease in 2026 was \$139,019 (2025: was \$151,302).

### 26. Insurance Business

MUFG Bank, Ltd., Auckland Branch does not conduct any insurance business in or outside New Zealand.

## Notes to the Financial Statements For the Year Ended 31 March 2026

---

### 27. Non-Consolidated Activities

MUFG Bank, Ltd. does not conduct any insurance business or non-financial activities in New Zealand outside MUFG Bank, Ltd., Auckland Branch.

### 28. Securitisation, Funds Management, and Other Fiduciary Activities

- (a) MUFG Bank, Ltd., Auckland Branch is not involved in any establishment, marketing, or sponsorship of trust, custodial, funds management or other fiduciary activities.
- (b) MUFG Bank, Ltd., Auckland Branch is not involved in any origination of securitized assets or in the marketing or servicing of securitization schemes.
- (c) MUFG Bank, Ltd., Auckland Branch is not involved in the marketing and distribution of insurance products.

### 29. Financial Support

The Auckland Branch is part of MUFG Bank, Ltd. The assets of the Branch are legally available for the satisfaction of debts of the entire company, not solely those appearing in the accompanying statement of financial position, and its debts may result in claims against assets not appearing thereon.

### 30. Subsequent Events

There has not been any matter or circumstance, other than that referred to in the financial statements or notes thereto, that has arisen since 31 March 2026, that has significantly affected, or may significantly affect, the operations of the Branch, the results of the operations, or the state of affairs of the Branch in future financial years.

## Independent Auditor's Report

### To the Directors of MUFG Bank, Ltd. – Auckland Branch

#### Opinion

We have audited the financial statements and the supplementary information (excluding the information relating to Credit and Market Risk Exposures and Capital Adequacy on pages 62 to 63) of MUFG Bank, Ltd. – Auckland Branch (the 'Branch' and 'the Banking Group') for the year ended 31 March 2026.

The financial statements comprise the statement of financial position as at 31 March 2026, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

The supplementary information (excluding the information relating to Credit and Market Risk Exposures and Capital Adequacy) comprise the information required to be disclosed under Schedules 4, 7, 11, and 13 of the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order 2014 (as amended) (the 'Order').

In our opinion, the accompanying financial statements, on pages 19 to 65, present fairly, in all material respects, the financial position of the Company as at 31 March 2026, and its financial performance and cash flows for the year then ended in accordance with New Zealand Equivalents to IFRS Accounting Standards ('NZ IFRS') as issued by the External Reporting Board and IFRS Accounting Standards ('IFRS') as issued by the International Accounting Standards Board.

In our opinion, the supplementary information (excluding the information relating to Credit and Market Risk Exposures and Capital Adequacy) disclosed in accordance with Schedules 4, 7, 11 and 13 of the Order (the 'Supplementary Information'):

- has been prepared, in all material respects, in accordance with the guidelines issued pursuant to Section 78(3) of the Banking (Prudential Supervision) Act 1989 and any Conditions of Registration;
- is in accordance with the books and records of the Branch in all material respects; and
- fairly states in all material respects the matters to which it relates in accordance with those Schedules.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ('ISAs') and International Standards on Auditing (New Zealand) ('ISAs (NZ)'). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Branch in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* ('PES 1') issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ('IESBA Code') as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with PES 1 and IESBA Code.

Other than in our capacity as auditor, we have no relationship with or interests in the Branch.

## Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><b>Expected credit loss on loans and advances to customers</b></p> <p>As described in note 10, the expected credit loss has been determined as \$4,655,365.</p> <p>We considered this a Key Audit Matter due to the significant judgement made by management in determining when to recognize an allowance for impairment losses on loans and advances to customers and in estimating the provision.</p> <p>As detailed in note 10, the Branch has gross loans and advances of \$4,700,674,444 and impairment allowances of \$2,996,103 on loans and advances and \$1,659,262 on undrawn commitments and guarantees.</p> <p>Key areas of judgement include:</p> <ul style="list-style-type: none"> <li>• Determination of the requirements under NZ IFRS 9 when calculating the impairment allowance, which is reflected in the Branch's expected credit loss model; and</li> <li>• Assumptions used in the expected credit loss model such as credit risk level of the borrower and macro economic environment as described in note 2.</li> </ul>	<p>We have performed the following audit procedures:</p> <ul style="list-style-type: none"> <li>• Evaluated the systems, processes and controls in place over the critical data elements used in the ECL models,</li> <li>• Assessed the Branch's material accounting policies and ECL methodologies against the requirements of NZ IFRS 9;</li> <li>• Engaged our credit risk specialists to perform an independent review of the model, including developing an independent point estimate;</li> <li>• Evaluated probability of default rates used by management;</li> <li>• Evaluated the probability weightings allocated to the multiple economic scenarios by benchmarking against industry trends and considering the appropriateness of selected weightings;</li> <li>• Challenged management on the appropriateness of the overlays (if applicable) applied including the scope of their application, and test the completeness and accuracy of the overlay calculations;</li> <li>• On a sample basis, tested exposures for objective evidence of impairment through evaluation of the latest financial information provided from the borrower to the Branch and other relevant industry information, to conclude on the appropriateness of the customer -credit rating allocated; and</li> <li>• Assessed disclosures in the disclosure statement against the requirements of NZ IFRS.</li> </ul>

## Emphasis of matter - Branch

The Branch is part of MUFG Bank, Ltd. As described in Note 29, the assets of the Branch are legally available for the satisfaction of debts of the entire Branch, not solely those appearing on the accompanying statement of financial position and its debts may result in claims against assets not appearing thereon. Our opinion is not qualified in respect of this matter.

## Other information

The directors are responsible on behalf of the Branch for the other information. The other information comprises the information in the financial statements in accordance with Schedule 2 of the Order on pages 4 to 18 that accompanies the financial statements, supplementary information, and the audit report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

Our responsibility is to read the other information identified above when it becomes available and consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

## Key audit matter

## How our audit addressed the key audit matter

### Directors' responsibilities for the financial statements

The directors are responsible on behalf of the Branch for the preparation and fair presentation of the financial statements in accordance with NZ IFRS and IFRS, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The directors are also responsible on behalf of the Branch for the preparation of Supplementary Information which fairly states the matters required to be disclosed under Schedules 2, 4, 7, 11 and 13 of the Order and which is prepared in accordance with any guidelines issued pursuant to Section 78(3) of the Banking (Prudential Supervision) Act 1989 ; any Conditions of Registration; and in accordance with the books and records of the Branch.

In preparing the financial statements, the directors are responsible on behalf of the Branch for assessing the Branch's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Branch or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the External Reporting Board's website at:

<https://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2>

This description forms part of our auditor's report.

### Restriction on use

This report is made solely to the Branch's Directors, as a body. Our audit has been undertaken so that we might state to the Branch's Directors those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Branch's Directors as a body, for our audit work, for this report, or for the opinions we have formed.

This audit report relates to the financial statements of MUFG Bank, Ltd. – Auckland Branch (the 'Branch') for the year ended 31 March 2026 included on the Company's website. The Directors are responsible for the maintenance and integrity of the Company's website. We have not been engaged to report on the integrity of the Company's website. We accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website. The audit report refers only to the financial statements named above. It does not provide an opinion on any other information which may have been hyperlinked to/from these financial statements. If readers of this report are concerned with the inherent risks arising from electronic data communication they should refer to the published hard copy of the audited financial statements and related audit report dated 30 June 2026 to confirm the information included in the audited financial statements presented on this website.

## INDEPENDENT ASSURANCE REPORT

To the Directors of MUFG Bank, Ltd. – Auckland Branch

### LIMITED ASSURANCE REPORT ON THE INFORMATION REQUIRED ON CREDIT AND MARKET RISK EXPOSURES AND CAPITAL ADEQUACY

#### Conclusion

We have undertaken a limited assurance engagement on the MUFG Bank, Ltd. – Auckland Branch's (the '**Branch**') compliance, in all material respects, with clause 22 of the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order 2014 (as amended) (the '**Order**') which requires information prescribed in Schedule 9 of the Order relating to credit and market risk exposures and capital adequacy to be disclosed in its Disclosure Statement for the year ended 31 March 2026.

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes user to believe that the Branch's information relating to credit and market exposures and capital adequacy disclosed in note 23 and 24 of the Disclosure Statement in compliance with clause 22 of the Order, does not comply, in all material respects, with Schedule 9 of the Order for the year ended 31 March 2026.

#### Basis of conclusion

We have conducted our engagement in accordance with Standard on Assurance Engagement (SAE) 3100 (Revised) Compliance Engagements ('**SAE 3100**') issued by the New Zealand Auditing and Assurance Standards Board ('**NZAuASB**').

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis of our conclusion.

#### Directors' Responsibilities

The Directors of the Branch are responsible on behalf of the Branch for compliance with the Order, including Clause 22 of the order which requires information relating to credit and market risk exposures and capital adequacy prescribed in Schedule 9 of the Order to be included in the Branch's Disclosure Statement. This responsibility includes the identification of risks that may threaten compliance requirements identified above being met and the design, implementation and maintenance of internal controls relevant to mitigating those risks and monitoring ongoing compliance.

#### Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* issued by the NZAuASB, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Other than in our capacity as auditor, we have no relationship with or interests in the Branch.

Our firm applies Professional and Ethical Standard 3: *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, which requires the firm to design, implement and operate a system of quality management including policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### Assurance Practitioner's Responsibilities

Our responsibility is to express a limited assurance conclusion on whether the Branch's information relating to credit and market risk exposures and capital adequacy, included in the Disclosure Statement in compliance with the Clause 22 of the Order is not, in all material respects, disclosed in accordance with Schedule 9 of the Order. SAE 3100 requires that we plan and perform our procedures to obtain limited assurance about whether anything has come to our attention that causes us to believe that the Branch's information relating to the credit and market risk exposures and capital adequacy, included in the Disclosure Statement in compliance with clause 22 of the Order is not, in all material respects, disclosed in accordance with Schedule 9 of the Order.

In a limited assurance engagement, the assurance practitioner performs procedures, primarily consisting of discussion and enquiries of management and others within the Branch, as appropriate, and observation and walk-throughs, and

evaluates the evidence obtained. The procedures selected depend on our judgement, including identifying areas where the risk of material non-compliance with clause 22 of the Order in respect of the information relating to credit and market risk exposures and capital adequacy is likely to arise.

Our procedures included:

- Obtained an understanding of the process, models, data and internal controls implemented over the preparation of the information relating to credit and market exposures and capital adequacy;
- Obtained an understanding of the Branch's compliance framework and internal control environment to ensure the information relating to credit and market risk exposures and capital adequacy is in compliance with the Reserve Bank of New Zealand;
- Performed analytical and other procedures on the information relating to credit and market risk exposures and capital adequacy disclosed in accordance with Schedule 9 of the Order, and considered its consistency with the financial statements; and
- Agreed the information relating to credit and market risk exposures and capital adequacy disclosed in accordance with schedule 9 of the Order to information extracted from the Branch's models, accounting records or other supporting documentation, which included publicly available information as prescribed by clauses 5 and 6 of Schedule 9 of the Order.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Accordingly, we do not express a reasonable assurance opinion on compliance with the compliance requirements.

### **Inherent Limitations**

Because of the inherent limitations of an assurance engagement, together with the inherent limitations of any systems of internal control, it is possible that fraud, error or non-compliance with compliance requirements may occur and not be detected even though the engagement is properly planned and performed in accordance with Standards on Assurance Engagements.

A limited assurance engagement of the Branch's information relating to credit and market risk exposures and capital adequacy prescribed in Schedule 9 of the Order to be included in the Disclosure Statement in compliance with clause 22 of the Order does not provide assurance on whether compliance will continue in the future.

### **Use of Report**

Our assurance report is made solely for the Directors for the purpose of establishing that these compliance requirements have been met. Our work has been undertaken so that we might state to the Directors those matters we have been engaged to state in this assurance report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Directors of the Branch for our work, for this assurance report, or for the conclusions we have reached.
